

QUALITY POLICY

It is the Policy of **Scorpion Engineering Construction Ltd** to design, supply and erect protectively coated steel framed buildings which fully comply with Customers' requirements and conform to standards recognised by Customers as being outstanding.

To ensure achievement of this Policy, a Quality Management System is established to meet, and continue to meet, the requirements of ISO 9001: 2008. The Company is firmly committed to continually improve the effectiveness of its Quality Management System.

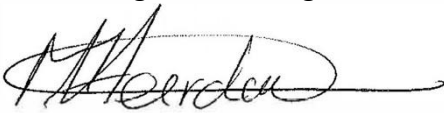

Scorpion Engineering Construction Ltd's strategic direction is:

- ✓ to ensure that Customer requirements and expectations are fully understood, standards created and service delivery continually monitored against these standards.
- ✓ to consistently meet Customer requirements by Quality performance and adoption of best practice.
- ✓ to provide the right organisation, facilities and resources and employ the right people to ensure Quality services which fulfil the Customer requirements effectively and efficiently.
- ✓ to continually review and monitor all aspects of operations to identify opportunities for implementing continuing improvement.

In support of this strategic direction, the Company has established Objectives to measure the achievement of the Quality System processes in the delivery of Quality Policy and as drivers for performance improvement.

The implementation of the Quality Management System is mandatory, but its success can only be achieved by the participation and commitment of everyone at **Scorpion Engineering Construction Ltd**. All members of **Scorpion Engineering Construction Ltd** will receive full support to ensure the Quality System is understood, implemented and maintained throughout.

It is our responsibility to ensure the Quality System functions correctly and its effectiveness is maintained through monitoring, control, audit and review.
